

Portable Fiber Drum Dechimer

Recycle

The Wizard® portable fiber drum dechimer safely and easily removes metal chimes from the tops and bottoms of fiber drums in just minutes. Recycle the fiber drum and the metal chimes for reuse and profit.

Fast and Safe

The portable Wizard fiber drum dechimer is designed for low to moderate volume drums (less than 50 per day), or for operations where drums are stored in multiple locations.

Simply place the unit on a drum, make an easy torque adjustment and start it. The unit moves itself around the drum, removing a chime in less than one minute per side.

- Portable and light weight - 25 lbs
- Fast - removes chime in less than a minute
- Universal - works on all types and size fiber drums
- Easy - just tighten on drum and go
- Ergonomically designed - easy to grasp
- Durable - high strength aluminum and hardened steel
- Quiet - quiet motor and tangle resistant cord
