DRUM DEHEADING TOWER AND WIZARD ACCESSORIES

DRUM DEHEADING TOWER

The Wizard® Drum Deheading Tower keeps the deheader suspended to prevent accidents or cause injury to the operator. The cord is held clear of the operator by the power cord support arm, and a 360 degree electric or air swivel connector prevents the cord from tangling.

BENEFITS

- ▶ Safe - provides comfort to the operator by eliminating strain and injury
- ▶ Portable - easily moved even when fully assembled; can be permanently bolted to the floor if necessary
- ▶ Easy - assemble/dis-assemble within 30 minutes
- ▶ Dimensions: 81" x 29" x 40"

ACCESSORIES

EXTRA CUTTER WHEELS

- ▶ Never worry about a dull blade
- ▶ Easy to install

DRUM HEAD LIFTER

- ▶ Strong heat-treated steel jaws
- ▶ Works with all US and foreign-made drums

DRUM PLUG (BUNG) WRENCH

- ▶ Long-lasting
- ▶ 18" handle for excellent leverage
- ▶ Angled handle minimizes knuckle scrapes
- ▶ Available in cast iron or non-ferrous bronze

DEKINKER

- ▶ Provides great clamping power
- ▶ Heavy-duty "railroad quality" construction
