

Make FIBER DRUM DISPOSAL an income rather than an expense!

WIZARD®
Stationary
DECHIMER
...the tool
that pays
for itself!

New and available only from WIZARD®, Wizard Fiber Drum Dechimers, made in the U.S.A. safely and easily remove metal chimes from the tops and bottoms of all fiber drums in less than a minute.

Sell the fiber. Trim your costs. Generate Quick Payback.

Once the metal chimes are removed, the fiber material can be sold. The metal chimes can also be recycled. *Finally* you can earn money on fiber drums rather than paying for their disposal.

Consider these fiber drum dechimer benefits:

Make money instead of spending money. Get money back from the sale of the fiber material. **Stay ahead of pending governmental regulations.** Landfill sites are filling up and closing fast. In the future, there may be no room at landfills for fiber drums. **Reduce operating expenses.** Dechiming fiber drums reduces waste costs, hauling costs, storage costs and landfill fees. **Reduce storage space.** No need to accumulate drums for pick up. Put your storage space to more productive use.

The WIZARD® Stationary Fiber Drum Dechimer-Patent Pending, is designed for a moderate to high volume of fiber drums. This durable, fully automatic, computer controlled, machine does all the work for you. Simply insert a drum. The dechimer revolves the drum, removing the top and bottom metal chimes at the same time. All in one operation that takes less than a minute.

The WIZARD® Stationary Fiber Drum Dechimer is:

Self adjusting - automatically adjusts to height of drum. **Universal** - Dechimes all sizes and types of fiber drums. **Fast** - Removes top and bottom chimes simultaneously in less than a minute. **Simple** - No complicated operating instructions required. **Fully Automatic** - Just place drum in unit and start. **Safe** - Computer controlled and guarded for safety and operator ease. **Durable** - Rugged steel and aluminum construction. **Flexible** - Can be moved by fork lift or be floor mounted.

The WIZARD® Stationary Fiber Drum Dechimer Lets You:

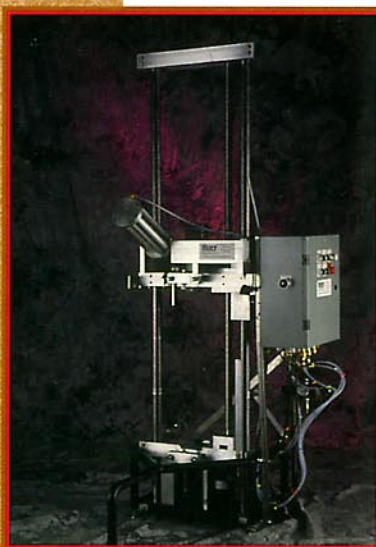

- Make fiber drums a source of income, not an expense.
- Reduce expenses such as hauling, disposal, landfill, and tipping fees.
- Stay ahead of pending governmental regulations.
- Reduce storage space and streamline plant operations.
