

# NEW The WIZ-Kids®

## a whole new generation of Steel Drum Openers

The WIZ-Kids® are the latest in Steel Drum Deheading Technology ... patented and available exclusively from the Wizard® Drum Tool Company, the only worldwide supplier of a complete line of drum deheading tools and equipment.

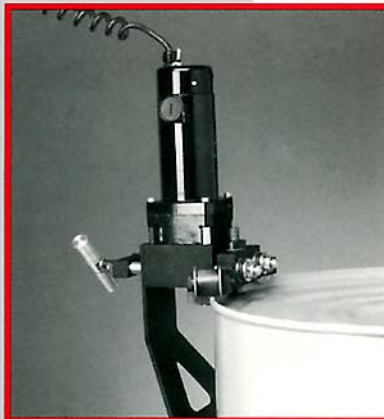

### There are two WIZ-Kids® that open steel drums easily and safely:

The Electric WIZ-Kid®, which moves itself around the drum, cutting and folding the metal toward the chime, leaving a safe, smooth burr-free edge on the drum. The Electric WIZ-Kid® is the right choice for moderate to low drum volume, where a power tool is required ... and ...

The Manual WIZ-Kid® designed for use in remote areas, where no power source is available, or where drum volume is low and a manual tool is preferred. It employs the same patented cutting principles as the Electric WIZ-Kid®, leaves the same safe drum edge, using a manual ratchet requiring only minimal user effort.

### Consider these WIZ-Kid® benefits:

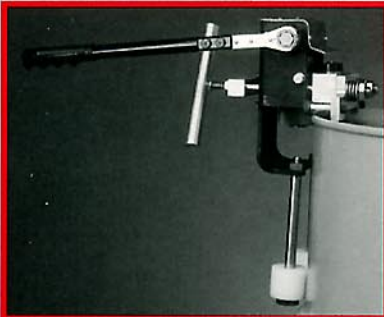

- The latest in steel drum deheading technology.
- Available only from WIZARD® Drum Tool Company
- Safe ... leaves smooth burr-free edge on the drum
- Fast ... dehead most drums in less than two minutes
- Easy to use ... no set up or drum preparation required
- Quick and easy cutter wheel changeout
- Lightweight, portable and user friendly
- Ergonomically designed, powered or manual
- Durable and long lasting
- Universal for 30-55 gallon steel drums up to 16 gauge
- Tough tools for a tough job.

### THE ELECTRIC WIZ-Kid®

The electric model moves itself around the drum, slicing horizontally into the chime, leaving a completely safe drum edge. It uses a 1/8 HP, 115 - V, 60 HZ single phase DC motor, (AC rectified), and is supplied with a tangle-resistant cord.

Dimensions: 12"L x 10"W x 24"H  
Wt: 26 lbs.

### THE MANUAL WIZ-KID®

The Manual WIZ-Kid® uses the same patented cutting principle as the electric model and leaves the same safe, smooth burr-free edge. It is propelled by an adjustable (left or right handed use) 18" ratchet, requiring only minimal user effort.

Dimensions: 12"L x 7"W x 18" H  
Wt: 19 lbs.
